

PERFORMANCE

Theragun Mini Plus

Enhance Recovery
Optimize Warm-Up
Relieve Soreness
Take Anywhere

Scientifically proven benefits

Theragun Mini Plus is the only travel-sized Theragun enhanced with heat, combining scientifically proven percussive massage with consistent, rapid heat up to 55°C to deliver benefits 3x faster than percussive massage alone*. Compact and lightweight, it's designed for recovery on-the-go, helping you quickly optimize warm-ups, relieve tension and reduce soreness anytime, anywhere.

Key features

Targeted percussive massage enhanced with heat therapy for deeper, faster recovery on-the-go

Heated percussive Plus attachment delivers 3 consistent, science-backed levels of heat up to 55°C

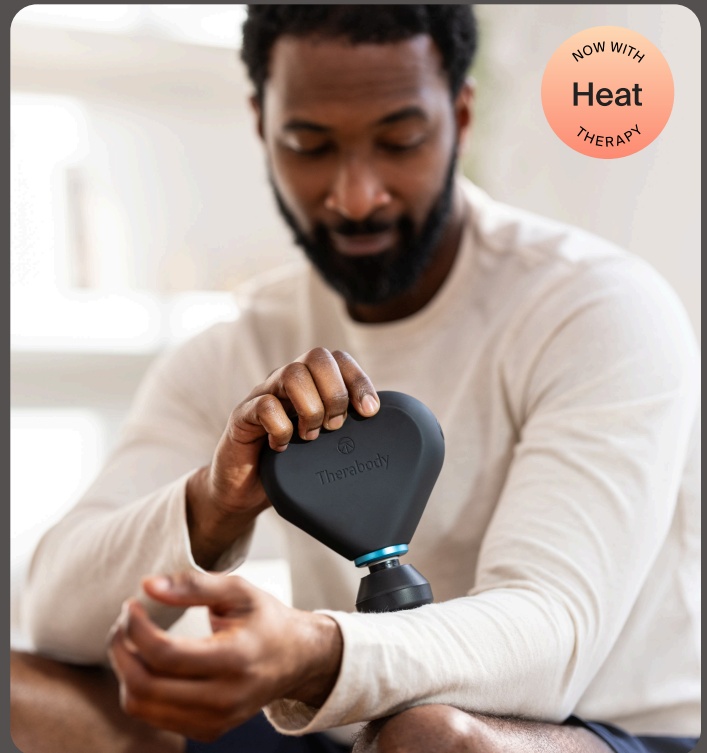

Compatible with all interchangeable Multi-Therapy Plus Attachments for ability to add-on Cold Therapy, Vibration Therapy and more (sold separately)

Tailor your treatments with 3 heat levels and 3 massage speeds. Use each therapy individually or together, with the option to turn either therapy off

Rounded ergonomic grip with simple, two-button controls plus a travel lock for hassle-free transport

Quiet, adaptive motor maintains speed and power when pressure is applied to prevent stalling

Coach by Therabody, free in the Therabody app, creates personalized recovery plans based on your goals and activity data each day

Compact & Effective Massage

Lightweight, Portable, On-The-Go Recovery

Heated Percussive

Bluetooth Connectivity
