

JetBoots Prime

Wireless.

Ultra-Portable

Safe, Science-Backed
Compression Levels.

Recharge your legs anytime, anywhere with the ultra-portable JetBoots Prime compression boots, which weigh only 6 lbs and fold up compactly to fit in a backpack. Featuring a fully wireless design with no wires or hoses, JetBoots Prime offer hassle-free recovery wherever you are. Utilising TruGrade Technology™, these boots accelerate recovery, reduce muscle soreness, and improve performance by delivering precise, science-backed pressure levels sequentially up the leg. The advanced built-in pump system ensures consistent and balanced treatment, optimising circulation and effectively removing metabolic waste more than competitors.

Science-Backed Benefits

- Accelerate recovery
- Reduce muscle soreness
- Improve performance
- Improve flexibility & mobility
- Boost circulation
