

### Key Features

1. All-in-one Washer + Heat Pump Dryer Combo
2. 10 Star Energy Rating For Dryer<sup>1</sup>
3. Super Speed
4. AI Opti Wash & Dry™
5. AI Energy Mode
6. Flex Auto Dispense
7. AI Home Touchscreen Display
8. Auto Open Door
9. 20 Year Motor Warranty<sup>2</sup>

# 1

### One-stop Laundry

#### All-in-one Washer + Heat Pump Dryer Combo

Wash and dry effortlessly. The All-in-one design seamlessly integrates an ultra-large 18.5kg smart washer with a 10kg smart heat-pump dryer, so you can wash and dry for a large family without transferring between 2 machines.

## Efficiency

# 2a.

### Dry with efficiency

#### 10 Star Energy Rating<sup>1</sup>

Heat Pump Technology offers a gentle and efficient way to dry clothes. It has an impressive 10-star rating<sup>1</sup> for energy efficiency because it uses a 'refrigerant' to heat the air, instead of electricity and recycles air which can help reduce energy usage.

# 2b.

### Wash & dry in 98 minutes<sup>3</sup>

#### Super Speed

Get clothes clean and dry in just 98 minutes<sup>3</sup>. The Super Speed cycle washes a 3kg load in 28 minutes<sup>3</sup> with Speed Spray and Swirl+ Drum. It can also dry a load in 70mins<sup>3</sup> using Heat Pump technology which dries gently at a low temperature.

# 2c.

### Take the thinking out of laundry

#### AI Opti Wash & Dry™

Wash and dry clothes thoroughly and efficiently. AI Opti Wash & Dry™ identifies the weight of the load to automatically dispense the right amount of detergent and water<sup>4</sup>. It also detects the fabric and monitors the level of soiling. It then adjusts the drying process to suit the weight and fabric of your laundry<sup>4</sup>.

# 2d.

### Durable & efficient motor

#### 20 Year Digital Inverter Motor Warranty<sup>2</sup>

Purchase with confidence. Digital Inverter Technology offers outstanding performance and is backed up by our 20 year limited parts warranty<sup>2</sup>.

## SmartThings

**Potentially save on your energy consumption<sup>5</sup>****AI Energy Mode<sup>6</sup>**

3a.

Monitor and help reduce your energy use. SmartThings Energy<sup>6</sup> can help monitor your energy consumption in real-time, provide an estimated electricity bill, and alert you if the estimated energy usage exceeds your preset target. You can even activate AI energy Mode on your compatible washing machine<sup>5</sup> to reduce the use of the heater and increase the cycle time, which could help reduce your energy consumption which could help you reduce the cost of your electricity bill.

**Control from your compatible smartphone<sup>6</sup>**

3b.

**SmartThings Laundry Planner**

Connect your washer dryer combo to your smartphone through the SmartThings App to start or stop your wash cycle from virtually anywhere and also receive cycle recommendations<sup>7</sup>.

**Smart Maintenance. Easy upkeep.**

3c.

**SmartThings Home Care<sup>6</sup>**

Take care of your washer dryer combo easily. SmartThings Home Care<sup>6</sup> notifies you when parts need replacing and helps troubleshoot problems. It even provides useful tips on using your appliance, as well as a user manual.

**Tailored care. Effortless laundry.**

3d.

**SmartThings Clothing Care**

Enjoy a more personalised and efficient laundry experience. SmartThings Clothing Care<sup>6</sup> creates customised clothing care cycles to suit your lifestyle<sup>8</sup>.

## Convenience

**Wash & dry more at once**

4a.

**Ultra-Large Capacity**

Enjoy the convenience of fewer loads and more time for yourself with our 18.5kg washer / 10kg dryer combo. It even fits a king size comforter, so you can fit a huge load of clothes without compromising on cleaning performance.

**Automatic efficiency**

4b.

**Flex Auto Dispense**

Your washer will automatically dispense the appropriate amount of detergent and softener for each load, so you don't need to worry about using too much or too little detergent. It also holds enough detergent & softener for up to 25 loads, or up to 47 loads if you only use detergent<sup>9</sup> in the flex dispenser. This way there is no need to fill up the detergent tank after every wash.

**Simple & intuitive control**

4c.

**AI Home Touchscreen Display**

With a 7" wide touchscreen display, enjoy easy and intuitive controls. It also acts as a control centre where you can monitor detergent levels, remaining time on your cycle, energy usage and more. You can even make & receive calls via Bluetooth Calling<sup>10</sup> or see who's at the front door using the compatible Ring Doorbell<sup>11</sup>.

**Hands-free control**

4d.

**Voice Enabled**

Control your washer dryer combo easily with your voice. Using Samsung Bixby<sup>12</sup>, you can simply say what tell it what to do. You can select cycle options, control settings and monitor its progress. And, if you can't read the screen, it can even provide spoken feedback.

## Performance

- 5a.** **Hard on dirt, soft on clothes**  
**BubbleWash™ and BubbleSoak™**  
Enjoy efficient cleaning, even at low temperatures. BubbleWash™ pre-mixes detergent with air and water to quickly penetrate fabric to clean away dirt and help remove stubborn stains. BubbleSoak™ is an optional pre-treatment cycle in which clothes are soaked in bubbles before your wash cycle.
- 5b.** **Help reduce microfiber release<sup>3</sup>**  
**Less Microfiber Cycle**  
Samsung's specially designed Less Microfiber Laundry cycle washes clothes gently to minimise garment agitation which could reduce the amount of microfibers released<sup>13</sup>.

## Hygiene

- 6a.** **Fresh smelling clothes every time**  
**Auto Open Door**  
Avoid the frustration of having to wash clothes again to get rid of the damp smell when they've been left wet for a while. After a wash cycle ends, Auto Open Door lets humid air escape to help keep your clothes smelling fresh till they are ready to be dried.
- 6b.** **Remove stubborn stains**  
**Steam Wash**  
Use the power of steam to help eliminate stains without harsh chemicals. The powerful Steam Wash cycle improves cleaning quality by releasing steam from the bottom of the drum, so every item is thoroughly saturated as it rises. This helps loosen ingrained dirt and ensures deep cleaning.
- 6c.** **Easy Maintenance**  
**Auto Condenser Cleaning<sup>14</sup>**  
Keep your heat condenser clean and working efficiently. Auto Condenser Cleaning uses a powerful nozzle to spray the heat exchanger with water before the drying cycle starts. This helps remove lint and dirt that accumulates over time, and helps maintain efficient & reliable drying performance.
- 6d.** **Keep the inside clean**  
**Self Clean+ & Self Dry**  
Keep the inside of the machine clean and fresh. Self Clean+ removes dirt and odor-causing bacteria in the drum by soaking, pulsating and spinning. It even notifies you when it needs cleaning<sup>15</sup>. Additionally, Self Dry uses hot air to dry any moisture inside the drum.

1. 10 star energy rating only applies to drying performance of the appliance. Washer component has a 4.5 star rating.
2. 20 year parts warranty on the inverter motor. See warranty Card or visit [www.samsung.com.au](http://www.samsung.com.au) for details
3. Wash in 28 minutes : Based on using a Super Speed cycle with an 3kg cotton base load in accordance with KS C IEC61121:2012. Individual results may vary based on actual load contents. Dry in 70 minutes: Based on using a Super Speed cycle with an 3kg cotton base load in accordance with KS C IEC61121:2012. Individual results may vary based on actual load contents.
4. AI Wash & Dry's detection and sensing capabilities are based on our deep learning models trained using predefined set of data and may yield inaccurate or incorrect results. New datasets may be introduced to our learning models from time to time to enhance its accuracy.
5. Based on internal testing and verified by KATRI (Korea Apparel Testing Research Institute) third party testing in accordance with IEC 60456:2010 standard, using a US Samsung washing machine (model number: WD25DB8995BZ) with a 3kg cotton base load on AI Wash & Dry cycle with AI Energy Mode ON, and when compared with a similar load with AI Energy Mode OFF.
6. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.
7. The recommended washing cycle is only based on time and may not be appropriate for the type of fabrics or stain level of the articles being washed.
8. The user will be solely responsible for any consequence(s) that may result, including but not limited to any damage or harm caused by incorrect information provided by the user.
9. Expected number of loads: Detergent compartment can hold general detergent for up to 25 loads. Flex compartment can hold one of the following: softener for up to 34 loads, general detergent for up to 22 loads or specialty detergent for up to 29 loads.
10. The ability to respond to calls using your voice is available with any smartphone, but making calls using your voice is only available with Samsung Galaxy smartphones.
11. Compatible with the Ring Video Doorbell Elite / Ring Video Doorbell Pro with Chime Pro / Spotlight Cam Mount / Spotlight Cam Wired / Stick Up Cam Battery / Video Doorbell 2 / Video Doorbell 3 / Video Doorbell Pro. The availability of Ring Doorbell varies by country.
12. Bixby is Samsung's brand of artificial intelligence (AI) / Internet of Things (IoT) voice assistant. Bixby service availability may vary depending on country. Bixby recognizes selected languages and certain accents/dialects. The user interface may change and differ by device. The availability of Bixby features and content providers may vary depending on the country/carrier/language/device model/OS version. A Samsung account log-in and data network connection (Wi-Fi or data network) are required.
13. Based on testing by the Ocean Wise Plastics Lab using a 2kg load of 100% polyester hoodies, comparing the Synthetics cycle on a Samsung conventional model 27" washing machine with US design and the Less Microfiber cycle. Results may vary depending on the actual clothes and usage conditions.
14. Manual cleaning is required after using the dry cycle every 180 times.
15. Provides a notification after every 40 cycles with Self Clean and every 30 cycles with Self Dry.
