

Philips 2000 Series Air humidifier

HU2716/70

- Humidifies rooms up to 32 m²
- 200 ml/h humidification rate
- Up to 99% less bacteria
- Automatic humidity settings

Breathe the difference

Humidifies dry air and adjusts automatically

- Up to 99% less bacteria with NanoCloud technology (1)
- Effective in rooms up to 32 m² (3)
- Even, effective circulation throughout your room
- Automatic humidification with 3 settings
- Digital display with real-time feedback
- No white dust or wet floors (4)
- Safe, effective and completely natural (5)
- Sleep mode for quiet nights
- Smart design for ease of use
- Low energy and water consumption

*(1) Compared to standard ultrasonic humidifier modules that do not contain additional technology to reduce bacteria-spreading, tested by independent lab

** (2) Tested by GB/T 23332-2018 in third-party laboratory. Initial temperature of 23±2°C and relative humidity of 30±2% RH

*** (3) Calculated using AHAM HU-1-2016 clause 7.3 based upon the humidification performance tested according to GB/T 23332-2018 in a third-party laboratory

**** (4) Deposition of minerals on furniture was tested by a third party laboratory over a period of 3 hours according to DIN 44973, IUTA e.V..

***** (5) Tested by GB 21551.3-2010 in third-party laboratory. Ozone, TVOC, PM10 and UV intensity are below the limitation.

***** (6) Calculated based on 2L full water tank running at speed one with 130ml/h humidification rate.

Humidifies rooms up to 32 m², 200 ml/h humidification rate, Up to 99% less bacteria, Automatic humidity settings

HU2716/70

Highlights

NanoCloud Technology

Unique NanoCloud technology uses natural evaporation to emit pure water vapor. NanoCloud's ultra-fine mist is invisible to the eye and extremely difficult for bacteria or residue to attach to – humidifying the air with up to 99% less bacteria released than standard ultrasonic humidifiers. (1)

Effective humidification

3 fan speeds and automatic settings deliver the performance and comfort you choose. With an output of up to 200 ml/h, it effectively humidifies any room up to 32 m². (2,3)

Moist air, evenly distributed

A 360-degree diffuser distributes humidified air evenly through the whole room. Ultra-fine NanoCloud vapor carries further and prevents over-saturation for effective humidification, particularly in larger rooms.

Automatic humidification

A smart humidity sensor monitors the air and automatically adjusts to keep humidity at your preferred level: 40%, 50% or 60%. A water-level alert lets you know when to refill the tank, and the humidifier automatically shuts off when it runs out of water.

Real-time feedback

A digital display reports humidity in real-time with additional indicators for water level, timer and mode.

No white dust or wet floors

NanoCloud's invisible mist does not release white dust or leave wet patches in your room (4). Larger droplets emitted by ultrasonic humidifiers may dampen the surroundings and carry minerals that leave white residue on nearby surfaces. NanoCloud particles are too small to carry minerals, effectively preventing residue and stains.

Safe and effective

NanoCloud technology uses natural evaporation, widely recognized as a hygienically safe and effective method of humidification. No ions, chemicals or ozone are used (5) and no water is heated, so there is no risk of burns.

Quiet sleep mode

Sleep mode minimizes noise levels to work quietly and efficiently through the night.

Ease of use

A large water tank provides hours of nonstop humidification. Refilling is as simple as lifting off the top. Easy-to-clean design helps keep the humidifier and the air in your home clean and hygienic.

Specifications

Weight and dimensions

Weight of product: 2.56 kg
Dimension of packaging (LxWxH): 280*280*400 mm
Dimension of product (LxWxH): 220*220*350 mm
Water tank: 2 L
Color(s): White & Rose Gold
Weight incl. packaging: 3.68 kg

Service

2-year worldwide guarantee: Yes

Energy efficiency

Max. power consumption: 17 w
Voltage: 220-240 V
Stand-by power consumption: < 0.5 W

Usability

Runtime (6): 15 hours
Timer: 1~9 hour(s)
Cord length: 1.6 m
Manual speed settings: 1, 2, 3
Modes: Automatic and Sleep
Humidity settings: 40%, 50%, 60%

Replacement filters

Humidifier Wick: FY3446 - Up to 6 months

Performance

NanoCloud technology (1): Up to 99% less bacteria
Humidification room size (3): Up to 32 m²
Humidity rate (2): 200 ml/h
Humidity sensor: Yes
Air quality feedback: Numerical
