

SFPA7302TX

70CM CLASSIC PYROLYTIC OVEN

MADE IN ITALY
Since 1948

REFINED TRADITIONAL COOKING

Whether you're a passionate cook, master baker or avid entertainer, this oven enables self-expression in the kitchen. A large capacity coupled with ten traditional cooking functions including static, fan forced, turbo, grill and more, provides endless cooking options at your fingertips.

PYROLYTIC CLEANING

Pyrolytic self-cleaning oven technology means one less kitchen chore. The oven heats to a temperature approaching 500°C for up to three hours and carbonises grease and food residue to a fine ash that can be easily wiped out with a damp cloth. No harsh chemicals are required and the door remains safe to touch.

TEN TRADITIONAL COOKING FUNCTIONS:

OTHER FUNCTIONS:

THERMOSEAL

The seal of Smeg's quality, technical excellence and taste: succulent roasts, crisp pastry and impressive baking is achieved in Smeg's unique, perfectly controlled cooking environment. Thermoseal maintains the perfect atmospheric balance in the cavity for optimum cooking conditions.

COOL DOOR TECHNOLOGY

Smeg's Cool Door system is a combination of technologies which is driven by a 22 blade tangential fan and includes a heat exchange baffle system. It draws cool air up through the panes of heat-reflective glass in the door, making it safe to the touch even when the oven is at pyrolytic temperatures of around 500°C.
