- Warranty for purchase protection
- Self-sharpening metal blades

#### Ultimate precision and control

- Control buttons
- Easy to select and lock-in 60 length settings: 0,5 to 42mm
- Adjustable hair combs for the best clipping results

# Highlights

## Control buttons

The intuitive user interface gives you precise feedback on the selected length. Use the buttons to easily select and lock-in more than 60 length settings. Quickly browse through lengths or slowly go through each small step of 0.2 mm.

## 60 lock-in length settings

Use the Control Buttons to precisely select and lock-in the length you want, with more than 60 length settings. Use the comb to trim with precisely 0.2mm increments between 1 and 7mm, and 1mm between 7 and 42mm. Or you can use it without the comb for a close 0.5mm trim.

## 3 adjustable hair combs

The clipper comes with 3 adjustable hair combs: from 1 to 7mm, 7 to 24mm and 24 to 42mm. Just attach one of the combs for more than 60 lock-in length settings, with precisely 0.2mm increments between 1 and 7mm, and

1mm between 7 and 42mm. Or you can use the clipper without the comb for a close 0.5mm trim.

## Motorized Combs

The motor powered length setting system easily selects and locks in the preferred length. The motor powers the comb and allows selecting between lengths with a precision of up to 0.2mm. This innovative technology gives you the security of clipping all the time at the desired length and achieving consistent results time after time.

## Auto Turbo

The Auto Turbo feature automatically adapts to thicker hair, giving a little boost of extra power for an effortless cutting motion.

## Remembers last length setting

The comb goes back to the last used cutting length setting when the clipper is turned on.

## Powerful cordless use

Don't get tangled up in your cordless hair clippers – a 1 hour charge provides up to 120 minutes of powerful clipping time. Or keep it plugged in for uninterrupted trimming.

## 2-year worldwide guarantee

All of our grooming products are built to last. They come with a 2 year warranty, never need to be oiled and are compatible with any voltage worldwide.

## Self-sharpening metal blades

Self-sharpening metal blades for long-lasting sharpness
