EASYTRONIC

TRD50615T - TRD51024T

- **MAXIMUM HEATING POWER:** up to 2400W on TRD51024T
- **HIGH PERFORMING BATTERY DESIGN:** More than doubled radiant surface* ensures more radiant heat for increased thermal comfort, while the chimney effect ensures warm air distribution
- **REAL ENERGY:** It works at full power till the ambient is raised at the desired temperature, so you can enjoy the desired comfort quickly
- **INTUITIVE USER INTERFACE:** select the preferred ambient temperature across the 3 areas - Extra Care, Comfort Temp, Sleep - and their 12 temperature levels. Easy, intuitive and allowing for a more responsible use of the appliance. **Programmable** with 24h mechanical timer.
- **ELECTRONIC TEMPERATURE CONTROL and AUTOMATIC POWER MODULATION:** The exact room temperature precisely delivered and maintained, without oscillations thanks to the electronic thermostat and the automatic power modulation. Save up to 25% of your energy bill to keep your room warm and temperature constant within +/- 0.5°C of your comfort level.
- **Power Limit, energy reduction function:** to allow for minimal power consumption
- **Safety thermostat**
- **Front and rear handle and cord wrap**
- **Pre-assembled wheels to improve the mobility**

Long lasting gentle heating with effortless interaction.

Your desired temperature
easily achieved and effectively maintained

HIGH
PERFORMING
DESIGN

The exclusive battery design with extra large surface and chimney effect ensures that more heat is transferred to you and your environment

LONG LASTING
GENTLE HEAT

Thanks to the sealed diathermic oil, heat is released gently and evenly in the room, and continues to be released for a while even after the appliance has been switched off

EASYTRONIC
CONTROLS

Self-explanatory user interface, electronic temperature control and automatic power management allowing for: easy interaction, digital precision; effective energy use. The mechanical 24h programmable timer enables timed heating.

QUICK AND EASY

Ready to use and easy to transport, thanks to the pre-assembled folding wheels and handles

TECHNICAL DATA		TRD50615T	TRD51024T
Rated voltage/Frequency	V~Hz	230-240 ~50	230-240 ~50
