*(1) From the air that passes through the filter, tested to DIN71460 with NaCl aerosol 0.003um, iUTA

***(2) Lifetime of filter depends on the air quality and usage.

Highlights

Compatible with 3200 Series

Replacement filters for Philips PureProtect 3200 Series air purifiers: AC3210, AC3220, AC3221. You can find your air purifier model on the bottom of the device.

The package includes 2 filters

Compatible models require both filters to be used simultaneously for optimal filtration performance. Simply insert one at the bottom of your air purifier, and the other one at the top.

Lasting filter up to 1 year

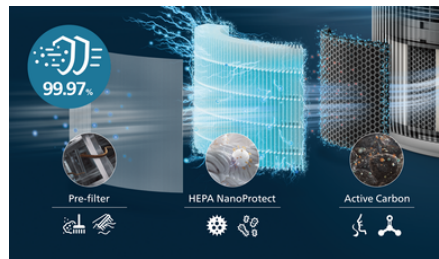

The filters ensure optimal filtration performance for up to 1 year (2), reducing hassle and cost. To enhance filtration, vacuum the pre-filter regularly.

Original replacement filter

The original Philips filter is designed for a perfect fit with your device. For optimal performance, always use the genuine Philips filter.

3-layer HEPA filtration

3-layer filtration made of pre-filter, HEPA NanoProtect and Active Carbon captures 99.97% of particles as small as 0.003 microns (1) – to protect you from pollutants, viruses, allergens, bacteria and odors.

Smart filter status indicator

Your Philips device notifies you when to replace the filter, with an indicator on the display. Maintenance is effortless, taking less than a minute.

Air+ app for filter status

Connect your device to the Air+ app to monitor your filter status and easily order replacements when needed.

Specifications

Included in the box

HEPA NanoProtect filter: 2x filters

Performance

Particle filtration: 99.97% at 0.003 microns

Filtration layers

Activated carbon: Yes
