

- Maximum power: 1800 W.
- Safe and efficient ceramic heating element, that provides fast and powerful spot heat safely, thanks to the ceramic element self-regulating heat output.
- 2 power settings to optimize the energy consumption
- Summer ventilation.
- Adjustable room thermostat.
- Anti-frost function.
- Pilot light.
- Ergonomic handle, for easy transportation.
- Foldable base.

CERAMIC TECHNOLOGY

Ceramic technology is highly efficient thanks to the wide heating element and highly reliable thanks to the capability of the PTC element to self-regulate the power output according to the temperature increase.

2 POWER LEVELS

The two power settings allow you to optimize the energy consumption adapting to your needs.

TECHNICAL DATA

Rated voltage/Frequency	V~Hz	220-240~50
Heating power - Max	W	1800
Heating power - Min	W	900
For rooms up to	m ³	55
Anti-frost function		220/240~50/60
Summer ventilation		■
Handle		■
Foldable base		■
Dimension (wxdxh)	mm	192x137x270
Weight	Kg	1.3

COLOURS AVAILABLE

	Ivory white	HFX30C18.IW
	Asphalt grey	HFX30C18.AG
