BENEFITS

Use your fridge your way With 5 simple preset settings, it takes the hassle out of rearranging food and lets your fridge adapt to real life.	Water without the clutter The hidden side water dispenser keeps the fridge exterior clean while still giving quick access to filtered water without fully opening the door.
Fresh food, looked after FreshSeal Easy Glide Crispers automatically control humidity to help keep fruit and vegetables fresher for longer. Smoothgliding drawers make everyday access easy, even when fully loaded.	Freezer space that works Dual freezer drawers make it easier to organise food so frequently used items are always within reach and larger meals stay neatly stored.
Ice ready, without planning Automatic Ice with XL Capacity keeps a steady supply of ice available for everyday use and family catch-ups. There are no filling trays or a need to think ahead its simply ready when needed.	Consistent cooling, done properly TwinTech Dual Cooling uses separate cooling systems for the fridge and freezer to help maintain stable temperatures and humidity. This supports better food care over time, helping keep fresh food fresh and frozen food properly frozen.

A freezer boost when you need it

Quick Freeze rapidly lowers the freezer temperature after youve added a large shop, helping protect frozen food until everything is back to normal. It runs for a set time, then automatically returns to normal operation, so theres nothing else to manage.

Freshness locked in fast

Quick Chill rapidly lowers the fridge temperature after a large grocery shop to help stabilise conditions and protect fresh food. It runs for a set period and then automatically returns to normal operation.

Snacks, made easy

SnackZone is a dedicated compartment designed to keep everyday favourites in one easytoeach place. Positioned at a practical height, it helps the whole family find what they want quickly without rummaging through the fridge.
