BENEFITS

Three ways to cook, one simple appliance
Combine microwave, grill and airfry cooking in one versatile appliance. Roast, grill or reheat with ease, so you can prepare everything from crispy toasties to full meals without needing multiple appliances.

Even cooking, made faster
Inverter technology delivers a steady flow of power for more even heating, so your food cooks consistently without hot or cold spots. Its also designed to cook faster and more efficiently, helping you get better results.

Quick heat for everyday meals
With 1100 watts of power, it heats food efficiently and evenly, making it easy to get meals on the table without the wait.

Control your cooking, your way
With 10 power levels to choose from, you can easily adjust the cooking intensity to suit different foods. From gentle defrosting to fullpower heating, it gives you more control for consistent, reliable results.

AirFry for that perfect, crunch
Enjoy crispy, golden results with little to no added oil, right in your microwave. AirFry makes it easy to create tasty, crowdpleasing meals with less effort, so you get the crunch you love, without the extra guilt.

Set and forget
Take the guesswork out of microwaving with our pre-defined set of Auto Menus that are designed to cook specific foods, such as popcorn, soup, and pasta. The menus will select the correct power level and cooking time making it easier for you.

Easy access, every time
The auto return turntable resets to its starting position when cooking finishes, so your dish is right where you expect it. It makes handling hot food simpler, safer and more convenient.

Quick reheat, with one touch
Need food fast? The quick start function adds 30 seconds at the press of a button, making it easy to reheat meals in a hurry with no extra steps.

Added safety, peace of mind
The child safety lock helps prevent accidental use, giving you extra confidence in a busy kitchen, especially with little ones around.
