

# Swipe. Select. Impress.

The best of the Barista Touch plus a whole lot more

## Auto MilQ

Silky microfoam with at least one million micro bubbles per ml, made for you and ready for pouring latte art.

## With Alternative Milk Settings

Three new alternative milk settings calibrate the pressure, temperature and timing specific to the type of milk you choose.

The *4 keys formula* to unlock professional performance at home

1  
Precision Puck

2  
Extraction Pressure

3  
Extraction Temperature

4  
Microfoam Bubbles

# Introducing the Barista Touch Impress

With Impress Puck System and Alternative Milk Settings

NEW

**Breville**  
Master Every Moment®

## Impress Puck System

Intelligent Dosing with Central Grinds Loading

Assisted Tamping with a Barista Twist Finish

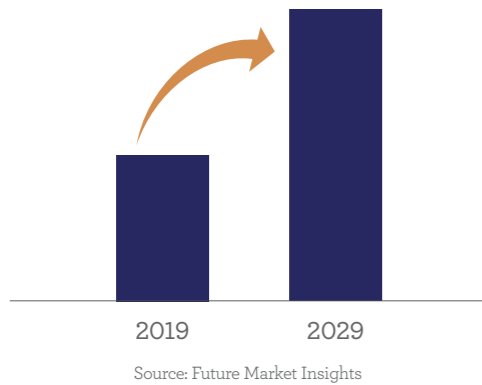

Precision Measurement Auto Corrects the Next Dose

## Demand for milk is changing...

Alternate milk consumption is on the rise due to taste preference, health and sustainability reasons.

- Lactose free
- Flexitarian (dairy-free)
- Eco-friendly (non-dairy)

Global Alternative Milk Sales are expected to double

## Alternative milks are easier to overheat

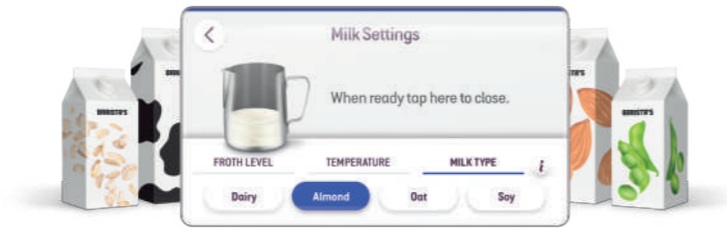

Due to their fat and protein content, alternative milks are easier to over-heat compared to dairy milk. In fact, the steam pressure, and temperature need to vary depending on milk type.

## Auto MilQ

### with Alternative Milk Settings

Our latest machine, the Barista Touch™ Impress features three new alternative milk settings which calibrate the pressure, temperature and timing specific to the milk you choose. The result – silky smooth microfoam for perfect latte art.

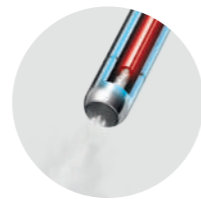

### The ultimate in automatic microfoam control and cleaning

Adjustable Temperature Control  
Up to 30 temperature levels.

From flat white to cappuccino  
Up to 9 microfoam levels.

Cool Touch Steam Wand\*  
Cool touch prevents milk from burning.

Auto Purge  
Auto purges after steaming to prevent clogging of the steam wand.
