

nutribullet®

TRIPLE PREP SYSTEM

1 Base, 3 Functions.

Blend large, blend single-serve, or food process, all on the same base. The best part? It's programmed with vessel recognition, so it only displays functions relevant to the attachment you're using.

The Right Touch.

A different touch screen display illuminates for each attachment, providing the exact functions you need, and none that you don't.

Intelligent Programs

Simple, effective programs for each attachment make it easy to get the results you seek, whether it's a perfectly-sliced zucchini or a frosty frozen cocktail.

Pitcher Perfect.

The 64-oz blending pitcher features a vented snap-on lid that lets you safely blend hot foods for soups and purees, plus an easy-pour spout for fewer drips and splatters

Fully Processed.

The food processor attachment features a 7-cup work bowl, plus blades for slicing, shredding, chopping, and kneading dough. Blades stack neatly inside the processor when not in use.

Includes:

1500-WATT BASE
STAINLESS STEEL BLADE
64 OZ BLENDING PITCHER

7-CUP PROCESSING WORK BOWL
DOUGH BLADE
CHOPPING BLADE

SLICE/SHRED DISC
2 SINGLE SERVER CUPS
2 TO-GO LIDS
