

SPECIFICATIONS

MODEL	HUSWS72DMBZY	FEATURES
Dimensions	1215mm (H) x 595mm (W) x 600mm (D)	Matte Black Frame
Nett Capacity	240 litres, 34 Bottles (Upper), 34 Bottles (Lower)	Digital Temperature Display
Temperature Range	5 to 12°C (Upper) 12 to 18°C (Lower)	Locks as Standard
Cooling Zones	2	LED Internal Light
Shelves	5	3 Year Warranty
Refrigerant	R600a	

240L WINE FRIDGE

HUSWS72DMBZY

THE KEYS TO PRESERVING THE NATURAL TASTE OF WINE

TEMPERATURE

Although varying temperatures are used for serving, all wines should be stored between 12°C - 14°C. Storing your wine outside of these temperatures can spoil the natural taste.

HUMIDITY

Storing wine at lower than 50% humidity can lead to the cork drying out and shrinking. This can lead to air entering inside of the wine bottle leading to oxidation and odours.

LIGHTING

High amounts of light, particularly damaging UV rays can effect the natural colour and tannins within your wine. This can lead to damaging hydrogen sulphide compounds developing within the wine.

VIBRATIONS

Slight vibrations can accelerate the natural ageing process of wines and lead to a deterioration in flavour and an overall lack of quality.

AIRFLOW

A lack of airflow within a wine cabinet can lead to poor ventilation, stale air and sometimes mould. Active carbon filters help to eliminate odours that can develop within the wine cabinet.
