Note

- *1 Requires subscription to Caller ID service offered by your provider/ telephone company.
 - *2 Requires number registration in the call block list.
 - *3 Numberless calls cannot be blocked depending on the service of your provider/ telephone company.
 - *4 When using the base unit or handset to listen to messages, the noise reduction feature is activated automatically.
 - *5 Minimize unwanted noise and be compatible with the magnetic coils.
 - *6 Requires subscription to both Caller ID and Call Waiting with Caller ID services offered by your provider/ telephone company.
 - *7 Requires registration in the phonebook function.
 - *8 Difference between the maximum and minimum volume.
 - *9 Compared to maximum volume of standard Panasonic DECT telephones (e.g. KX-TG68 series).
 - *10 The maximum receiver volume is about 2 times louder than standard Panasonic DECT telephones (e.g. KX-TG68 series).
 - *11 The maximum speakerphone volume is about 1.4 times louder than standard Panasonic DECT telephones (e.g. KX-TG68 series).
 - *12 Requires registration in the phonebook to display the name.
 - *13 Actual battery performance depends on usage and ambient environment.
