PowerBoost

Pause

Easy transition from ceramic
cooktop

Hob2Hood

6.5kW rated input power

QuickCook Timer

Perfect heat control

Touch control

Easy cleaning

Residual heat indicator

Child safety device

BENEFITS

Larger pans are no problem

Larger pots or pans are catered for with MaxiZone. Our extra large cooking zone ensures that heat will be delivered consistently to large pans to help cook your special dishes to perfection with ease.

No more boiling over

There are more exciting things to do than watching water boil. BoilProtect detects rising bubbles and automatically reduces to a low simmer. No more constant monitoring so you can focus on the flavours. Applies to stainless steel and enamelled pots filled with water only.

Bridge zone gives you room to move

Even the biggest pots and pans can be catered for with Bridge Zone. Designed with busy family kitchens in mind, Bridge Zone lets you use two induction zones separately or link them together when you're cooking for a crowd.

Clear the air with Hob2Hood

With Hob2Hood technology, compatible rangehoods work seamlessly with your induction or ceramic cooktop to clear your kitchen of cooking smells and steam. As you start cooking, the rangehood will automatically turn on then intuitively adjust the fan speed and airflow to match your cooking. How's that for hands-free convenience?

Zero to Boil in no time

With PowerBoost, you can rapidly boil a pot of water or quickly heat up a frying pan. Spend less time waiting and more time creating your favourite meals.

Hold everything with our clever Pause function

We know that family life is full of distractions. That's why you'll appreciate our clever Pause function. Simply touch the Pause icon on your cooktop and all operating induction zones will drop to Keep Warm mode. When you're ready to go again, hit Pause again and settings will return to where you left off.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	2
Cooktop type	induction
Materials/Colour	black ceramic glass

DIMENSIONS
