IMPORTANT INFORMATION THAT MAY IMPACT YOUR MANUFACTURER'S WARRANTY

Adherence to the directions for use in this manual is extremely important for health and safety. Failure to strictly adhere to the requirements in this manual may result in personal

injury, property damage and affect your ability to make a claim under the Electrolux manufacturer's warranty provided with your product. Products must be used, installed and operated in accordance with this manual. You may not be able to claim on the Electrolux manufacturer's warranty in the event that your product fault is due to failure to adhere to this manual.

1. ⚠ SAFETY INFORMATION

Before the installation and use of the appliance read the supplied instructions carefully. The manufacturer is not responsible for any injuries or damage that result from incorrect installation or usage. Always keep the instructions in a safe and accessible location for future reference.

1.1 Children and vulnerable people safety

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved. Children of less than 8 years of age and persons with very extensive and complex disabilities shall be kept away from the appliance unless continuously supervised.
- Children should be supervised to ensure that they do not play with the appliance.
- Keep packaging away from children and dispose of it properly.
- WARNING: The appliance and its accessible parts become hot during use. Keep children and pets away during use and cooling.
- Activate the child safety device, if available.
- Children must not clean or maintain the appliance without supervision.

1.2 General Safety

- This appliance is for cooking purposes only.
- This appliance is designed for single household domestic use in an indoor environment.
- This appliance may be used in offices, hotel guest rooms, bed & breakfast guest rooms, farm guest houses, and other similar accommodation where such use does not exceed

average domestic usage levels.
- WARNING: Danger of fire: Do not store items on the cooking surfaces.
- CAUTION: The cooking process has to be supervised. A short term cooking process has to be supervised continuously.
- WARNING: Unattended cooking on a hob with fat or oil can be dangerous and may result in a fire.
- WARNING: The appliance and its accessible parts become hot during use. Care should be taken to avoid touching the heating elements.
- Smoke indicates overheating. Never use water to extinguish the cooking fire. Switch off the appliance and cover flames with e.g. a fire blanket or a lid.
- WARNING: The appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by a utility.
- Metallic objects such as knives, forks, spoons and lids should not be placed on the hob surface since they can get hot.
- Do not use the appliance before installing it in the built-in structure.
- Do not use water spray and steam to clean the appliance.
- After use, switch off the hob element by its control and do not rely on the pan detector.
- WARNING: If the surface is cracked, switch off the appliance to avoid the possibility of electric shock. In case the appliance is connected to the mains directly using junction box, remove the fuse to disconnect the appliance from power supply. In either case contact the Authorised Service Centre.
- If the supply cord is damaged, it must be replaced by the manufacturer, its Authorised Service Centre or similarly qualified persons to avoid an electrical hazard.
- WARNING: Use only hob guards designed by the manufacturer of the cooking appliance, or those indicated by the manufacturer of the appliance in the instructions for use as suitable, or hob guards that are incorporated in the appli-

ance. The use of inappropriate guards can cause accidents.

2. SAFETY INSTRUCTIONS

2.1 Installation

⚠ **WARNING!**
Only a qualified technician must install this appliance.

⚠ **WARNING!**
Risk of injury or damage to the appliance.

- Remove all the packaging.
- Do not install or use a damaged appliance.
- Refer to the installation booklet for detailed assembly instructions.
- Keep the minimum distance from other appliances and units.
- Be careful when moving the appliance, as it is heavy. Use safety gloves and enclosed footwear.
- Seal the cut surfaces of the cabinet with a sealant to prevent moisture swelling.
- Protect the bottom of the appliance from steam and moisture.
- Do not install the appliance next to a door or under a window to prevent hot cookware from falling from the appliance when the door or the window is opened.
- Ensure sufficient air circulation if the appliance is installed above drawers.
- The bottom of the appliance can get hot. Install a separation panel made from plywood, kitchen carcass material, or other non-flammable materials to prevent access.
- The separation panel must fully cover the area under the appliance.
- Keep 2 mm of ventilation space between the worktop and the front of the below unit. The warranty does not cover damages caused by the lack of an adequate ventilation space.

2.2 Electrical Connection

⚠ **WARNING!**
Risk of fire and electric shock.

- All electrical connections should be made by a qualified electrician.
- The appliance must be earthed.
- Disconnect the appliance from the power supply before any operation.
- Make sure that the parameters on the rating plate are compatible with the electrical ratings of the mains power supply.
- Loose or incorrect mains cables or plugs may lead to overheating of the terminal.
- Use the correct mains cable.
- Do not let the mains cable tangle.
- Ensure shock protection is installed.
- Use the strain relief clamp on the mains cable.
- Ensure the mains cable or plug (if applicable) do not touch hot surfaces.
- Do not use multi-plug adapters and extension cables.
- Avoid damaging the mains plug and cable. If replacement is needed, it must be done by our Authorised Service Centre or a qualified electrician.
- Shock protection of live and insulated parts must be fastened securely and should not be removable without tools.
- Connect the mains plug to the socket only at the end of installation. Ensure access to the mains plug after installation.
- If the mains socket is loose, do not connect the mains plug.
- Do not disconnect the appliance by pulling on the mains cable. Always pull on the mains plug.
- Use only correct isolation devices: line protecting cut-outs, fuses (screw type fuses removed from the holder), earth leakage trips and contactors.
- The electrical installation must have an isolation device that disconnects the appliance from the mains at all poles, with a contact opening width of at least 3 mm.

2.3 Use

⚠ **WARNING!**
Risk of injury, burns and electric shock.

- Do not change the specification of the appliance.
- Remove all the packaging, labelling and protective film (if applicable) before first use.
- Ensure ventilation openings are not blocked.
- Do not leave the appliance unattended during operation.
- Turn off the cooking zone after each use.
- Do not place cutlery or saucepan lids on cooking zones, as they can become hot.
- Do not operate the appliance with wet hands or when it comes in contact with water.
- Do not use the appliance as a work surface or as a storage surface.
- If the surface of the appliance is cracked, immediately disconnect the appliance from the power supply to prevent the electric shock.
- Users with a pacemaker must keep a distance of minimum 30 cm from the induction cooking zones when the appliance is in use.
- Place food into hot oil carefully as it may splash.
- Do not use aluminum foil or other materials between the cooking surface and the cookware, unless otherwise specified by the manufacturer of this appliance.
- Use only accessories recommended for this appliance by the manufacturer.

⚠ WARNING!
Risk of fire and explosion.

- Heated fats and oils can release flammable vapors. Keep flames and heated objects away.
- Hot oil vapors can cause spontaneous combustion.
- Used oil with food remnants can ignite at lower temperatures.
- Do not place flammable products near the appliance.

⚠ WARNING!
Risk of damage to the appliance.

- Do not place hot cookware on the control panel to avoid the risk of burns.
- Do not put a hot pan cover on the glass surface of the appliance.
- Do not let cookware boil dry.
- Prevent objects or cookware from falling onto the appliance to avoid the surface damage.
- Do not activate the cooking zones with empty cookware or without cookware.
- Cookware made of cast iron or with a damaged bottom can cause scratches on the glass / glass ceramic. Always lift cookware up when you have to move it on the cooking surface.
- Concerning the lamp(s) inside this product and spare part lamps sold separately: These lamps are intended to withstand extreme physical conditions in household appliances, such as temperature, vibration, humidity, or are intended to signal information about the operational status of the appliance. They are not intended to be used in other applications and are not suitable for household room illumination.
- To repair the appliance contact the Authorised Service Centre. Use original spare parts only.

2.4 Care and cleaning

- Clean the appliance regularly to prevent surface deterioration.
- Switch off the appliance and let it cool down before cleaning.
- Clean the appliance with a moist soft cloth. Use only neutral detergents. Do not use abrasive products, abrasive cleaning pads, solvents or metal objects, unless otherwise specified.
- Check the product regularly for signs of deterioration that may make it unsuitable for food contact, such as cracks, blisters, delamination, shrinkage, stickiness, corrosion, or other visible changes in texture or appearance. Follow cleaning and care instructions to prevent deterioration.

2.5 Disposal

⚠ WARNING!
Risk of injury or suffocation.

- Contact your local authority for information on how to dispose of the appliance.
- Disconnect the appliance from the mains supply, then cut off and dispose of the electrical cable.

3. ASSEMBLY

3.1 Before the installation

For future reference, find the rating plate located on the bottom of the hob and write down the serial number ..... , model ..... , PNC ..... .

3.2 Assembling the hob

ⓘ For installation dimensions and visual guidance, refer to the installation diagrams located on the first pages of the user manual.

If you install the hob under a hood, see the installation instructions of the hood for the minimum distance between the appliances.

If the appliance is installed above a drawer, the hob ventilation can warm up the items stored in the drawer during the cooking process.

3.3 Attaching the seal

On−top installation

1. Clean the worktop around the cut out area.
2. Attach the supplied 2x6 mm seal stripe to the lower edge of the hob, along the outer edge of the glass ceramic. Do not stretch it. Make sure that the ends of the seal stripe are located in the middle of one side of the hob.
3. Add some millimetres to the length when you cut the seal stripe. Join the two ends of the seal stripe together.

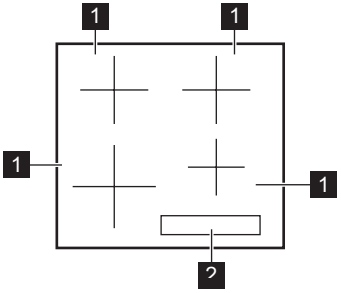

3.4 Connection cable

⚠ **WARNING!**
All electrical connections must be made by a qualified electrician.

- The hob is supplied with a connection cable.
- Use the cable type: H05BB-F 3x2,5 mm² with a 25A all-pole breaker. Tighten the terminal screws securely. To replace the cable contact an Authorised Service Centre.
- The cable type must be in accordance with local standards (AS/NZS 3000).

4. PRODUCT DESCRIPTION

4.1 Cooking surface layout

1 Induction cooking zone
2 Control panel

4.2 Symbols on the control panel and the display

Symbol / indicator	
⏻	On / Off
🔒	Lock / Child Safety Device
⏸	Pause
−/+	To set a heat setting.
⏲, +/−	Timer
BOOST	PowerBoost
P	PowerBoost operates.
A	Automatic Heat Up operates.
L	Lock / Child Safety Device operates.

Symbol / indicator	
u	Pause operates.
3/2/1	OptiHeat Control
-	Automatic Switch Off operates.

Symbol / indicator	
E + digit	There is a malfunction.
F	There is a problem with the cookware.

5. DAILY USE

5.1 Using the hob

Press and hold ⏻ to activate or deactivate the hob. Put the cookware in the centre of the cooking zone. Set a heat setting using + and −. To deactivate the cooking zone, press + and − at the same time.

5.2 Cookware

The base of the cookware should be as thick and flat as possible. Clean and dry it before placing cookware on the hob. Do not slide or rub the cookware on the edges and corners of the glass to avoid chipping or damaging the surface. Do not place hot cookware on the control panel to avoid damage to the electronic parts.

Ensure that the cookware is induction compatible (i.e. a magnet sticks to its base). For optimal heat transfer use cookware with bottom diameter similar to the size of the cooking zone. Cookware with a smaller diameter might heat up slower, while one with a larger diameter might overheat and damage the control panel.

Cookware material

- **correct:** cast iron, steel, enamelled steel, stainless steel, multi-layer bottom (with a correct marking from the manufacturer).
- **incorrect:** aluminium, copper, brass, glass, ceramic, porcelain.

Noises during operation

Noises may vary depending on the cookware material and the current heat setting. They are normal and do not indicate any malfunction.

- cracking noise: cookware is made of different materials (a sandwich construction).
- whistling sound: a high heat setting is activated and the cookware is made of different materials (a sandwich construction).
- humming: a high heat setting is activated.
- clicking: electric switching occurs.
- hissing, buzzing: the cooling fan operates.
- rhythmic sound: cookware is detected.

5.3 Automatic Switch Off

As a safety measure, the hob switches off automatically in certain conditions (e.g. when all cooking zones are deactivated, when no heat setting is selected after activation, or when cookware boils dry).

5.4 3/2/1 OptiHeat Control (3 step Residual heat indicator)

The indicator signals that a cooking zone is still hot. As long as the indicator is visible, there is a risk of burns from residual heat. The indicator disappears when the cooking zone has cooled down.

5.5 Power management

If the hob reaches the limit of maximum available power, the power of the cooking zones will be automatically reduced in order to protect the fuses of the house installation. For cooking zones that have a reduced power, the control bar blinks and shows the maximum possible heat settings.

5.6 BOOST PowerBoost

To activate the maximum heat setting for a limited time. You can use it to boil water faster.

Press BOOST to activate. Once the time runs out the cooking zone returns to the highest heat setting. To deactivate the function, change the heat setting.

5.7 Automatic Heat Up

The function speeds up the heating of the cooking zone to reach the selected heat setting faster. The cooking zone must be cold.

1. Press BOOST to activate.
2. Press + as soon as P appears.

3. Press — to choose a heat setting.

After 3 sec [A] appears.

To deactivate the function, press —.

5.8 Timer

To specify how long a cooking zone should operate: set a heat setting on the cooking zone and press ⏲ until the corresponding cooking zone indicator appears. Set the time using + / — of the timer.

To see the remaining time press ⏲ until the corresponding cooking zone indicator appears. The display shows the remaining time. When the set time runs out, the cooking zone deactivates. To stop the sound touch ⏲. To cancel the timer press ⏲ until the corresponding cooking zone indicator appears, then press — until 00 appears on the display.

To use the function as a Minute Minder: when the hob is on but none of the cooking zones operate, press ⏲ and set the time using + / —.

5.9 || Pause

The function sets all active cooking zones to the lowest heat setting.

The function does not stop any active timers.

To activate/deactivate, press ||.

5.10 🔒 Lock/Child Safety Device

To lock/unlock the control panel as needed.

To lock the control panel briefly while cooking: press 🔒 once. Press again to unlock.

To prevent accidental operation of the hob: press and hold 🔒 for 4 sec while all the zones are deactivated, then switch off the hob. The function stays active when you deactivate the hob. To deactivate the function, switch on the hob, press and hold 🔒 for 4 sec, and switch off the hob.

To override the function for only one cooking session: switch on the hob, press and hold 🔒 for 4 sec and set the heat setting within 10 sec. You can use the hob. When you switch off the hob the function is active again.

5.11 Energy saving tips

- When you heat up water, use only the amount you need.
- Always put lids on the cookware, if possible.
- Use the residual heat to keep food warm or to melt it.

6. COOKING GUIDE

The data in the table is for guidance only.

Setting	Use to:	Time (min)
[U] - 1	Keep cooked food warm. Put a lid on the cookware.	as necessary
1 - 2	Make hollandaise sauce; melt butter, chocolate, gelatine. Mix from time to time.	5 - 25
2	Solidify fluffy omelettes, baked eggs. Cook with a lid on.	10 - 40
2 - 3	Simmer rice and milk-based dishes, heat up ready-made meals. Add at least twice as much liquid as rice, mix milk dishes halfway through.	25 - 50
3 - 4	Stew vegetables, fish, meat. Add a few tablespoons of water. Check the water amount during cooking.	20 - 45
4 - 5	Steam potatoes and other vegetables. Fill the pot with 1-2 cm of water. Check the water level during cooking. Keep the lid on.	20 - 60
4 - 5	Cook larger quantities of food, stews, and soups. Up to 3 l of liquid plus ingredients.	60 - 150
6 - 7	Gently fry escalopes, veal cordon bleu, cutlets, rissoles, sausages, liver, roux, eggs, pancakes, doughnuts. Turn over when needed.	as necessary
7 - 8	Deep-fry hash browns, loin steaks, steaks. Turn over when needed.	5 - 15

Setting	Use to:	Time (min)
9	Boil water, cook pasta, sear meat (goulash, pot roast), deep-fry chips.	
BOOST	Boil large quantities of water. PowerBoost is activated.	

7. CARE AND CLEANING

7.1 Cleaning the hob

- Clean the hob after each use.
- Always use cookware with a clean base.
- Do not let cookware boil dry or reach excessively high temperatures.
- Do not use cookware made of induction-incompatible materials. Such materials may scratch or stain the hob surface.
- Scratches or dark stains on the glass surface do not affect the performance of the hob.
- Do not use knives or any other sharp, metal tools to clean the glass surface.
- Use a recommended scraper only as an additional tool after standard cleaning.
- Wait until the hob cools down and clean the surface with a moist cloth and a non-abrasive detergent. After cleaning, wipe the surface dry with a soft cloth.
- **Remove immediately:** melted plastic, plastic foil, salt, sugar, and food with sugar. Use a scraper and take care to avoid burns.
- **Remove when the hob is sufficiently cool:** limescale rings, water rings, fat stains, burnt food remains, shiny metallic discolouration. Clean the surface as described above. To remove shiny metallic discolouration use a soft cloth and a solution of water and vinegar.

8. TROUBLESHOOTING

ⓘ If you cannot find a solution to the problem below, contact an Authorised Service Centre.

You cannot activate/operate the hob.

- Make sure the hob is correctly connected to the electrical supply.
- Make sure that the fuse is the cause of the malfunction. If the fuse blows repeatedly or if you can hear a constant beep noise, contact a qualified electrician to inspect the installation.
- Make sure the control panel is clean and unobstructed by cookware/foreign objects.

The hob switches off by itself after some time.

- This is not a malfunction. In certain situations the hob switches off automatically to maintain safety. Refer to "Automatic Switch Off".

The maximum heat setting for one of the cooking zones is not available or it keeps changing between two levels.

- This is not a malfunction. Refer to "Power management".
- Reduce the heat setting of the other cooking zones connected to the same phase.

Automatic Heat Up does not work.

- Make sure the highest heat setting is not activated.
- Let the cooking zone cool down.

E and a digit appear.

- Switch off the hob, wait a few minutes, then switch it back on. If the problem continues, contact an Authorised Service Centre.

F appears.

- Use cookware with bottom diameter similar to the size of the cooking zone.
- Make sure the cookware is induction-compatible.

9. TECHNICAL DATA

9.1 Rating plate

Induction	220 - 240 V, 50 Hz
CHEF	4.6 kW

9.2 Cooking zones specification

The power of the cooking zones might slightly differ from the data below, depending on the material and the dimensions of the cookware.

Cooking zone	Nominal power (maximum heat setting) [W]	PowerBoost [W]	PowerBoost maximum duration [min]	Cookware diameter [mm]
Left front	2300	3200	10	125- 210
Left rear	1400	2500	4	125 - 145
Right front	1400	2500	4	125 - 145
Right rear	1800	2800	8	150 - 180

10. WARRANTY - AUSTRALIA AND NEW ZEALAND

FOR SALES IN AUSTRALIA AND NEW ZEALAND

APPLIANCE: CHEF BUILT-IN OVENS, COOKTOPS, FREESTANDING COOKER AND WARMING DRAWER

This document sets out the terms and conditions of the product warranties for Chef Appliances. It is an important document. Please keep it with your proof of purchase documents in a safe place for future reference should there be a manufacturing defect in your Appliance. This warranty is in addition to other rights you may have under the Australian Consumer Law.

1. **In this warranty:**
   - **a)** 'ACL' or 'Australian Consumer Law' means Schedule 2 to the Competition and Consumer Act 2010;
   - **b)** 'Appliance' means any Electrolux product purchased by you and accompanied by this document;
   - **c)** 'ASC' means Electrolux's authorised serviced centres;
   - **d)** 'Chef' is the brand controlled by Electrolux Home Products Pty Ltd of 163 O'Riordan Street, Mascot NSW 2020, ABN 51 004 762 341 in respect of Appliances purchased in Australia and Electrolux (NZ) Limited (collectively "Electrolux") of 3-5 Niall Burgess Road, Mount Wellington, in respect of Appliances purchased in New Zealand;
   - **e)** 'Warranty Period' means the period specified in clause 3 of this warranty;
   - **f)** 'you' means the purchaser of the Appliance not having purchased the Appliance for re-sale, and 'your' has a corresponding meaning.
2. **Application:** This warranty only applies to new Appliances, purchased and used in Australia or New Zealand and is in addition to (and does not exclude, restrict, or modify in any way) other rights and remedies under a law to which the Appliances or services relate, including any nonexcludable statutory guarantees in Australia and New Zealand.
3. **Warranty Period:** Subject to these terms and conditions, this warranty continues for in Australia for a period of 24 months and in New Zealand for a period of 24 months, following the date of original purchase of the Appliance.

4. **Repair or replace warranty:** During the Warranty Period, Electrolux or its ASC will, at no extra charge if your Appliance is readily accessible for service, without special equipment and subject to these terms and conditions, repair or replace any parts which it considers to be defective. Electrolux may, in its absolute discretion, choose whether the remedy offered for a valid warranty claim is repair or replacement. Electrolux or its ASC may use refurbished parts to repair your Appliance. You agree that any replaced Appliances or parts become the property of Electrolux.
5. **Travel and transportation costs:** Subject to clause 7, Electrolux will bear the reasonable cost of transportation, travel and delivery of the Appliance to and from Electrolux or its ASC. Travel and transportation will be arranged by Electrolux as part of any valid warranty claim.
6. **Proof of purchase** is required before you can make a claim under this warranty.
7. **Exclusions:** You may not make a claim under this warranty unless the defect claimed is due to faulty or defective parts or workmanship. This warranty does not cover:
   - **a)** light globes, batteries, filters or similar perishable parts;
   - **b)** parts and Appliances not supplied by Electrolux;
   - **c)** cosmetic damage which does not affect the operation of the Appliance;
   - **d)** damage to the Appliance caused by:
     - negligence or accident;
     - misuse or abuse, including failure to properly maintain or service;
     - improper, negligent or faulty servicing or repair works done by anyone other than an Electrolux authorised repairer or ASC;
     - normal wear and tear;
     - power surges, electrical storm damage or incorrect power supply;
     - incomplete or improper installation;
     - incorrect, improper or inappropriate operation;
     - insect or vermin infestation;
     - failure to comply with any additional instructions supplied with the Appliance;

   In addition, Electrolux is not liable under this warranty if:
   - **a.** the Appliance has been, or Electrolux reasonably believes that the Appliance has been, used for purposes other than those for which the Appliance was intended, including where the Appliance has been used for any non-domestic purpose;
   - **b.** the Appliance is modified without authority from Electrolux in writing;
   - **c.** the Appliance's serial number or warranty seal has been removed or defaced
8. **How to claim under this warranty:** To enquire about claiming under this warranty, please follow these steps:
   - **a.** carefully check the operating instructions, user manual and the terms of this warranty;
   - **b.** have the model and serial number of the Appliance available;
   - **c.** have the proof of purchase (e.g. an invoice) available;
   - **d.** telephone the numbers shown below.
9. **Australia:** For Appliances and services provided by Electrolux in Australia: Electrolux goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the Appliance repaired or replaced if the Appliance fails to be of acceptable quality and the failure does not amount to a major failure. 'Acceptable quality' and 'major failure' have the same meaning as referred to in the ACL.
10. **New Zealand:** For Appliances and services provided by Electrolux in New Zealand, the Appliances come with a guarantee by Electrolux pursuant to the provisions of the Consumer Guarantees Act, the Sale of Goods Act and the Fair Trading Act. Where the Appliance was purchased in New Zealand for commercial purposes the Consumer Guarantee Act does not apply.
11. **Confidentiality:** You accept that if you make a warranty claim, Electrolux and its agents including ASC may exchange information in relation to you to enable

Electrolux to meet its obligations under this warranty.
