*Based on consumer testing in Germany comparing leading One touch (Coffee + Milk) Full Automatic Espresso Machines (2018).

***Based on 70-82 °C.

****Based on 8 filters replacement as indicated by the machine. Actual number of cups depends on selected coffee varieties, rinsing and cleaning patterns.

Highlights

8 delicious coffees

Every moment has its own kind of coffee to enjoy. From powerful espresso to indulgent cappuccino, your fully automatic espresso machine delivers a perfect in-cup result without any fuss in no time.

LatteGo milk system

Enjoy silky-smooth cappuccino, even with your favourite plant-based milk alternatives. Thanks to the cyclonic frothing technology, LatteGo transforms various types of milk and plant-based alternatives with the right amount of fat and protein into the best possible dense layer of foam.

Intuitive display

There's little standing between you and your next delicious cup of coffee with our easy to use display. In a few steps you can customize your fresh-bean flavor and flow smoothly from craving to cup.

Coffee customizer

Make any coffee your own with the coffee customizer's easily adjustable settings for intensity, coffee and milk length.

User profiles

Enjoy coffee you love the same way every time with two user profiles that store your customized recipes. With an extra guest profile, your visitors can savor a coffee exactly the way they like, without changing yours.

Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

100% ceramic grinders

Bring out the full flavor of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures they last for at least 20.000 cups, from coarse to ultra-fine.

Exceptionally easy to clean

For your convenience, you can put LatteGo drip tray and the coffee ground container in the dishwasher. This will save time and ensure a hygienic cleaning.
