Congratulations on your new Inalto 10kg Front Load Washing Machine!

THE CONTROL PANEL

- Before washing, please ensure that the transport bolts are removed from the rear of the machine and that it is installed correctly following the instructions on page 7 of the user manual.
- Run the Drum Clean (or a similar program) at an optional temperature of 90°C without clothes inside to ensure that the drum is as clean as possible.

QUICK START STEPS

- Plug in the power supply and turn on the water supply.
- Open the door and load in the laundry.
- Close the machine door.
- Measure the detergent and pour in the appropriate amount.
- Power on the washing machine.
- Select the desired program.
- Select any additional functions if required.
- Press the Confirm button and then press the Start/Pause button to begin.
- At the completion of a wash program, the washing machine will make an audible tone and “End” will be displayed on the screen.

OPERATING THE WASHING MACHINE

1. Power on your front load washing machines by turning the Program Selection Dial and selecting your desired washing cycle.
2. Select your preferred washing options using the additional function buttons on the right hand side panel (should you wish to select options different from the default cycle settings)
3. Touch the ‘Confirm’ button followed ‘Start/Pause’ button to start the cycle.

DRUM CLEAN

This program is specially configured to clean the drum and tube, incorporating a 90°C high temperature sterilisation process to enhance the environmental friendliness of clothes washing; however, it should be noted that additional items cannot be added during this program.

STEAM WASH

Suitable for daily laundry items like cotton and synthetics, harnesses the power of steam to deeply penetrate fibers, effectively eliminating bacteria and germs, preventing odours, and ensuring a hygienic clean to protect your health.

Note: This function is only compatible with the Cotton, Mix and Baby programs.
