

Philips Reverse Osmosis purification
 Aquaporin™ Water Station, Instant Hot

Aquaporin Inside™ technology

Removes bacteria, viruses, chlorine, fluoride
 3 temperature settings
 4 volume settings

ADD6901HBK01/79

Purified water, ambient, 45°C, 85°C or 95°C

Aquaporin Inside™ removes 110 kinds of substances

With instant heating technology, this RO water dispenser provides water of various temperatures within seconds. The innovative Aquaporin™ all-in-one RO filter removes 110 kinds of harmful substances that may exist in the tap water*.

Cleaner water assured

- Aquaporin Inside™ Reverse Osmosis

RO filtration removes 110 kinds of harmful substances

- Fresh hot water on demand in 3 seconds
- 4 preset temperatures for your different needs
- 4 preset water volumes for your different needs
- 2,000L filtration capacity
- Safety lock to prevent mis-operation or burning
- ClearSmart intelligent system
- Plug and play; no installation required
- UV-C LED keeps water fresh

Worry-free to use and maintain

- Excellent filtration efficiency

PHILIPS

Aquaporin™ Water Station, Instant Hot
Aquaporin Inside™ technology Removes bacteria, viruses, chlorine, fluoride, 3 temperature settings, 4 volume settings

Highlights

Aquaporin Inside™ Reverse Osmosis technology

Harnessing the power of nature. The biomimetic Reverse Osmosis membrane incorporates aquaporin proteins to replicate nature's own water filtration process and filters water faster and better than ever before. Aquaporin Inside™ Reverse Osmosis filtration technology is developed by Aquaporin A/S (Denmark) in collaboration with NASA and ESA for aerospace activities. This partnership highlights the level of technical innovation, performance and durability.

Fresh hot water on demand in 3 seconds

Thanks to instant heating technology, freshly purified hot water is dispensed within seconds.

4 preset temperatures for your different needs

Precisely controlled temperatures for your different needs. No more waiting for cooling down to a specific temperature. No matter coffee, tea or honey water, you can always make your favorite drink within seconds.

4 preset water volumes for your different needs

150ml, 200ml, 300ml, and 500ml, you can always find the best volume setting for your favorite cups.

UV-LED eliminates 99.99% of bacteria**

UV-C LED technology in the purified water tank inhibits bacteria growth in the freshly filtered water by up to 99.9%**.

Excellent filtration efficiency

The Philips Quick Twist multi stage RO filter with Aquaporin Inside™ technology is extremely efficient: only 1 volume waste water is created when 3 volumes purified water are produced (drain ratio 3:1). Traditional RO systems produce 12 volumes of waste water for 3 volumes of purified water (drain ratio 1:4). Great when water sources are scarce!

2,000L filtration capacity

The RO filter is good for filtering 2,000 liters of water, helping to save thousands of plastic bottles every year. So its not only good for you, its good for the environment too.

Plug and play; no installation required

No installation needed for the dispenser. With a compact design, you can put it anywhere at home.

ClearSmart intelligent system

Real-time filter status display, remind you to replace the filter if it is needed.

Safety lock to prevent mis-operation or burning

When the output water temperature is above 45 celsius, the safety lock will be automatically activated to prevent mis-operation or scalding.

Specifications

Filtration performance

- Pesticides reduction
- Filtration level: 5-stage
- Water hardness reduction
- Lead reduction
- PFOA reduction
- Recommended filter lifetime: 12 months**
- PFOS reduction

Purification system

- Chlorine removal

Heating performance

- Heating method: Instant heating

Filter specifications

- Filter precision: RO:0.0001um
- Filtration capacity: 2000L

Input water conditions

- Input water temperature: 5-38? °C

General specifications

- Voltage and frequency: 220V-240V~, 50Hz/60Hz
- Applicable inlet water: Municipal tap water
- Replacement filter cartridge: ADD541
- Product color: Black
- Inlet water temperature: 5-38? °C
- Water temperature: Ambient, 45, 85, 95 °C
- Water volume: 150, 200, 300, 500ml
- Raw water tank: 4L
- Product size: 200*302*404mm
- UV sterilization
- Filter lifetime indicator

Issue date 2024-06-11

Version: 8.8.1
