

## 9kg Top Load Washing Machine with Super Speed

- BubbleWash™
- Digital Inverter Technology
- Super Speed
- Soft Closing Door
- Colour: White
- Dimensions:  
(W) 610 mm  
(H) 1093 mm  
(D) 701 mm

BUBBLEWASH™

DIGITAL INVERTER  
TECHNOLOGY

SUPER SPEED

SOFT CLOSING DOOR

### BubbleWash™

Wash powerfully and more efficiently. BubbleWash™ with Digital Inverter Technology gets clothes really clean using less energy and less water. BubbleStorm™ helps detergent penetrate fabric 2.5x faster and gives up to 20% better fabric care. Dual Storm™ creates a vortex of water current that cleans more effectively.\*

### Super Speed

Cut your normal laundry time by up to 40% and get clothes thoroughly clean. Super Speed washes a load in just 31 minutes. It ensures powerful cleaning and reduces water usage by 20%. In addition, it shortens the rinsing time by shooting powerful jets of water and accelerates the spin speed.\*\*

### Digital Inverter Technology

Enjoy efficiency and long-lasting performance with Digital Inverter Technology. It utilises strong magnets for a quiet and powerful performance with enhanced energy efficiency. It also provides exceptional durability, backed-up by a 20 year warranty on the motor.\*\*

### Soft Closing Door

Avoid being frightened by unexpected bangs! The Soft Closing Door shuts safely, gently and silently, as a damper automatically slows its movement. A tempered glass window also lets you view your washing without lifting the lid. Stronger and more durable than traditional non-tempered glass washing machines.

\*Based on internal testing of the WA5000C 11kg model with BubbleWash™ and Digital Inverter motor, using an IEC 3kg load (water level 4), compared to the WA5700J 11kg model without BubbleWash™ and an AC motor (water level 4). Results may vary depending on the actual usage conditions. Based on internal testing, using Artificially Soiled Fabric (EMPA T20), compared to a Samsung conventional washing machine, WA5000C 11kg model. Results may vary depending on the actual usage conditions. Based on severity of washing action index, compared to a Samsung conventional washing machine, WA5000C 11kg model. Results may vary depending on the actual usage conditions. \*\*The 20 year warranty on the motor is a parts only warranty (labour and other costs are not covered) \*\*\*A Normal wash can be completed in as little as 31 minutes using Super Speed at the default settings with a 3kg load, compared to 53 minutes in a Samsung washing machine without Super Speed. Water consumption is reduced from 112 liters to 90 liters.
